

### Statement on Court's Filing in Westmoreland

McKinsey RTS is committed to transparency and to taking all possible steps to deliver superior work free of real or perceived conflict. As the Court has asked, and consistent with our cooperation with the US Trustee in all bankruptcy matters, we will work with the US Trustee to provide any information requested and will, as always, address any guidance the US Trustee deems appropriate to give. We believe our disclosures have always complied with the law and are confident they will be found appropriate here as well.

In nearly two decades of bankruptcy advising work, we have delivered debtors and their stakeholders superior results. As we work to ensure the same positive outcome for Westmoreland, we will continue to challenge in all venues the baseless allegations Jay Alix has made as part of his malicious anticompetitive campaign.
